

# Masterpieces of Solar Technology

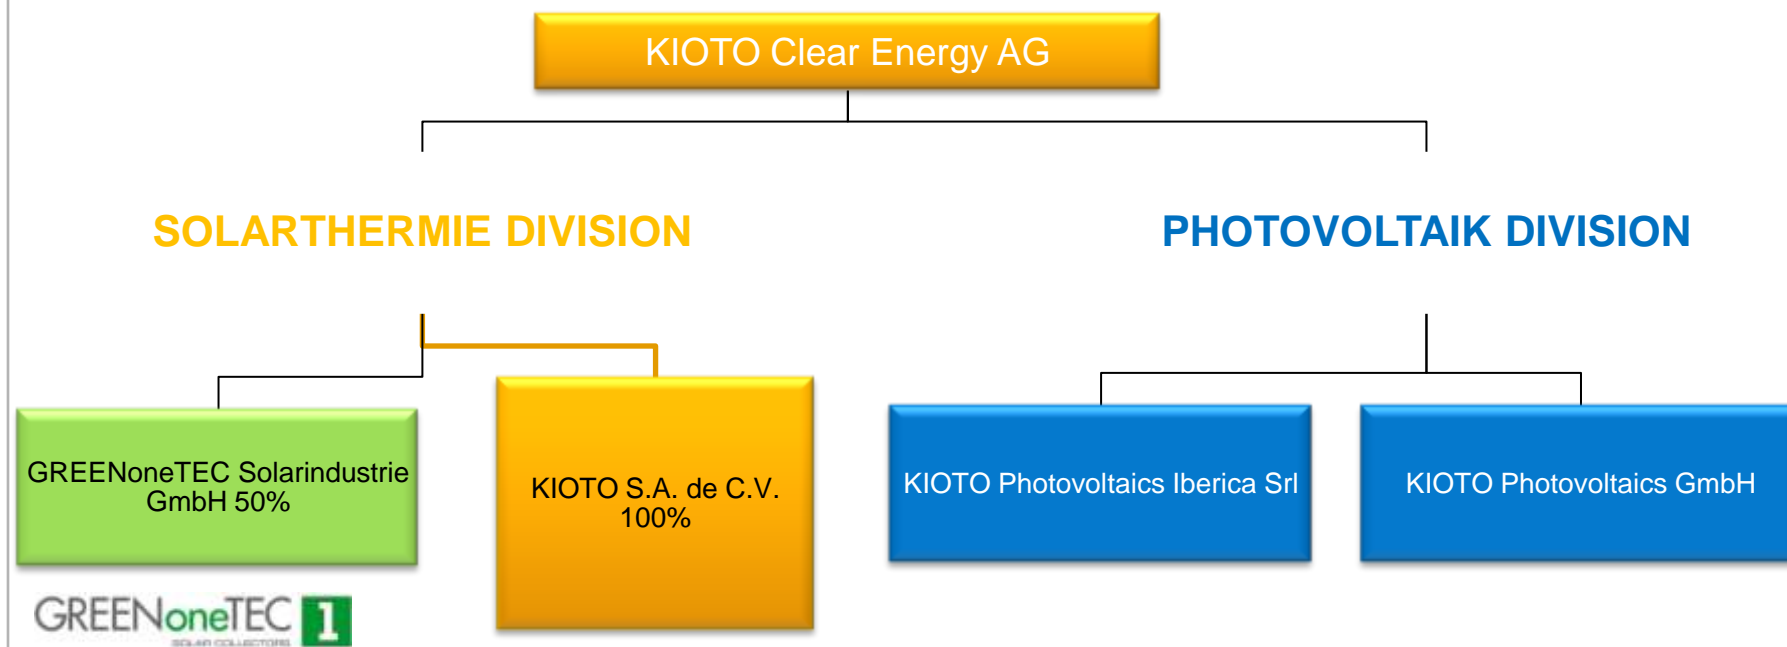

# Our Vision:

## A Solar Powered World

- The KIOTO Clear Energy Group has committed itself fully to the use of the sun as a primary source of power and heat for the global energy supply.
- Our total energy is focussed on the success of our customers.
- We guarantee the highest quality and ongoing cost optimisation for our customers, a conservative approach to resources and highly automated processes.

# The KIOTO Group

## Our way to Success

GREENoneTEC   
SOLAR COLLECTORS

33.000 m<sup>2</sup> production plant  
Staff 400-500 employees

1991

First Solar collectors made by Robert Kanduth, Peter Prasser

1995

Foundation „GREENoneTEC“

2003

Foundation „KIOTO Photovoltaics“

2005

Patent and start up serial production of fresh water modules

2006

Integration „UNIBLOCK“

Start of development and production of stratified layer modules

Foundation „KIOTO PV IBERICA“

2007

Construction of KIOTO Head-quarter St. Veit

Start up serial production of heat exchangers

2008

R&D Department KIOTO Hof/Wienna

Expansion of serial production in St. Veit

„GREENoneTEC“ produces more than 1 mio. m<sup>2</sup> solar collectors per year

First PV powerplant in Spain

Field test solar heating system

2009

Capacity expansion PV to 40 MW

Foundation „KIOTO Clear Energy“ SA. de C.V. Mexico

Foundation „KIOTO Photovoltaics“ Italia S.R.L.

# KIOTO Headquarters including GREENoneTEC at industrial park Austria – Key Figures

- Sales 2007 ~ 90 Mio. €
- Sales 2008 ~ 190 Mio. €
- Sales 2009 ~ 150 Mio. €
- Employees 2009 ~ 550

# KIOTO S.A. de C.V.: Guadalajara (MEX)

- New plant (opened May 2009) for the production of solar thermal flat collectors
- Current capacity: 100.000 m<sup>2</sup> of collector surface per year with a continuously extend of our production capacities to ensure a long term adequate supply to our customers
- Production of high quality collectors for the local requirements in Central and South America
- Top quality serial production, combined with the latest state of the art technology from Europe
- Enlargement with Latin Americas first solar used laser welding machine in June 2010
- Our customers can rely on the know how of the market leader and grow together with us faster than the market!
